

BCE RECOMMENDED DEWORMING SCHEDULE*

Time of Year	Dewormer	Comments
April	Ivermectin (Zimectrin)	Every horse should be dewormed- <i>even if no parasites seen on the fecal exam!!</i>
June	Oxybendazole (Anthelcide)	Only horses known to be “high shedders”
October	Moxidectin/Praziquantel (Quest Plus)	Every horse should be dewormed- <i>even if no parasites seen on fecal exam!!</i>
December	Fenbendazole (Panacur)	Only horses known to be “high shedders”

**If you are unsure what dewormers your horse should receive, contact our office.*

Fecal Exams:

Yearly fecal exams are recommended (time of year does not matter) to monitor parasite shedding.
